(54) TOPPING COMPOSITION FOR ELECTRONIC OVEN, FROZEN FOOD AND PRODUCTION THEREOF

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a topping composition for an electronic oven capable of imparting a good scorch and a flavorful aroma to a food and useful for the production of a frozen food, etc., by containing an amino acid, a reduced sugar, a protein and water.

SOLUTION: This topping composition contains a preferably 1-20 wt.% amino acid such as lysine, preferably 0.5-20 wt.% reduced sugar such as xylose, preferably 1-50 wt.% protein such as a gelatin, an egg white, an egg yolk protein, a wheat protein, a soybean protein or their mixture and water. Further, it is preferable to produce a frozen food by attaching the topping composition on the surface of the food and then freezing.

LEGAL STATUS

[Date of request for examination] 23.06.1999

[Date of sending the examiner's decision of rejection] 21.03.2001

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]
